FLOORING

Installation and maintenance of various types of flooring in residential, commercial, and industrial spaces. This can include materials such as hardwood, tile, vinyl, and carpet, among others. Flooring works can also involve subfloor preparation, leveling, and repair.

CARPET TILES

We offer a wide range of flooring solutions, including hardwood, laminate, engineered, vinyl, and carpet flooring, etc.

BROADLOOM CARPET

Broadloom carpet is a type of carpeting that is produced on a large loom in wide rolls, typically measuring between 12 and 15 feet in width. This type of carpet is typically used in large commercial spaces such as hotels, airports, and convention centers. It offers a seamless, wall-to-wall look and is available in a range of colors and patterns.

TYPE: AXMINISTER, HAND TUFTED, MACHINE PRINTED, RUGS, etc.

RESILIENT VINYL FLOORING

Resilient vinyl flooring is a type of flooring that is made from synthetic materials such as PVC. It is known for its durability, water resistance, and ease of maintenance. It is available in a range of styles, including tiles and planks, and can mimic the look of natural materials such as wood or stone.

TYPE: Homogeneous, heterogeneous, LVT, etc.

RAISED ACCESS FLOORING

Raised access flooring is a type of flooring that is elevated above a building's subfloor, creating a void or plenum that can be used for the placement of electrical, HVAC, and other systems. It is commonly used in commercial and industrial settings and allows for easy access to these systems for maintenance and repairs. Raised access flooring is available in a range of materials, including steel, aluminum, and wood.
